3. A recipe which wins its class may not be entered in future Vermont Maple Festival Cooking Contests.
4. Each dish entered must contain a significant amount of Pure Vermont Maple (syrup, sugar, or cream). The use of other Vermont products is encouraged. No artificial flavorings shall be used.
5. Any product entry that contain Cannabis or CBD will not be accepted
6. Products must be made from “scratch” - no mixes or prepared foods classified as “convenience foods”.
7. **Entries become the property of the Maple Festival and no containers or products will be returned to the entrant.**
8. Products, with ribbons, will remain on display at the Exhibit Hall for the remainder of the Maple Festival. **Unauthorized removal of products from the display area will result in future ineligibility.**
9. Cakes, pies, and breads should be delivered uncut. If the entry is created in individual servings or pieces, at least 3 samples must be provided, neatly arranged on a serving dish. Garnishing is encouraged.
10. Two copies of a clearly written recipe must accompany each entry. The second copy need not be decorated, or embellished, in any way; it will serve as a file copy. Recipes become the property of the Vermont Maple Festival and may be published.
11. Foods must not require refrigeration or heating prior to judging. Perishable products that would be unsafe to eat after 2 hours at room temperature should not be entered in this contest.
12. Contest entrants must be residents of Vermont.
13. Scoring will be based on the following criteria:

Appearance	10pts
Flavor	10pts
Texture	10pts
Uniformity of size/shape	10pts
Conformity to contest rules	10pts (including neatness of recipe)
Presentation	10pts
Prominence of Maple	20pts
<u>Overall quality of product</u>	<u>20pts</u>
Total	100pts
14. Maple, for the Health of It - to enter a product you must follow all other contest rules. In addition, you must state a nutritional goal (low fat/cholesterol, gluten free, antioxidant rich, high fiber, low sodium, etc.) for each product entered. Support the stated nutritional goal with the ingredients used in the recipe. A clear effort to omit or substitute for the targeted ingredients (fat, gluten, salt, etc.) must be in evidence. A product which is naturally free of these targeted ingredients is not an appropriate submission. For example: Maple Applesauce is not eligible as a low-fat entry because there is no expectation that applesauce would contain fat. A Maple Cookie, however, which used applesauce to replace the fat ordinarily found in a cookie, would be an acceptable entry. The enriching ingredients that are used to achieve the stated nutritional goal of enhancing the fiber content, adding antioxidants, etc., must be clearly indicated. Submit, along with the entry and recipe, a brief paragraph showing the adjustments which have been made to qualify the recipe for this new, healthy category.

15. Only one entry per class will be accepted from each participant. Entrants may, however, enter each class.

Good Luck! Enjoy the 59th Vermont Maple Festival.
